SUMMARY

Professional guy with 3+ years of experience in Android development who has profound learning, contributing and R&D skills. Creative person who prefers to not reinventing the wheel, instead create a vehicle, but in case of performance, memory management, app size and security will invent a spherical wheel. A value oriented and passionate developer who enjoys solving problems and making the world better place to live. A programmer with strong math skills, who starts learning TensorFlow Lite and its application in Android.

EXPERIENCE

Lead Android Developer

at Sheypoor

Jan. 2018 - Present

Tehran, Iran

Sheypoor is one of lead classifieds marketplaces in Iran with over 1.5+ M users per day, 13+ M overall users and 344+ M sessions.

Missions:

- Increase the number of users per day from 0.5+ M to 1.5+ M in a year.
- As the functional manager of Android team, I'm responsible for the code quality of Sheypoor app. I coach the team to practice design patterns, clean code and using app architecture, along with updating libraries and adding new features with focus on agility and UX.
- Implement new design of the entire app, including rebranding, for summer campaign.

Technologies:

- Dagger 2, RxJava 2, Butter Knife, Greendao, etc.
- Agile, Kanban, Git Flow, CI/CD
- Mockito, Espresso, Jacoco
- Pivotal Tracker, Github, Jenkins, Slack, Zeplin, etc.

Senior Android Developer

at Myket

Sep. 2015 - Des. 2017

Tehran, Iran

Myket is one of lead app stores in Iran with over 8+ M users.

Missions:

- Starting TDD and installing Jenking's pipeline to handle CI/CD.
- Implementing features such as handling deeplinks, search page, inbox page, etc.

Technologies:

- Volley, One Signal, EventBus, OrmLite, etc.
- Agile, Scrum, Git Flow
- Mockito, Espresso
- Atlassian Jira, Atlassian Confluence, Gitlab, Jfrog, Jenkins

Java and C# developer

at Soha System

Mar. 2015 - Aug. 2015

Tehran, Iran

SOHA was formed to focus on solutions based on smart cards.
